GARRISON MSS.

My dear friend

On the 27th we packed a box of articles for the Boston Bazaar which would leave Sheffd the following day for Lpool— As I had no other address I directed the box to Brown's Temperance Hall, Clayton Square, putting also my name on the direction card— I fear there will not be time to see about it, but perhaps then or some of my friends can write to some one in Lpool about it that it may be sent on board— I do not know the name of the steamer in which

them sails, for which I am sorry
as I should look out for any notice
of her — we shall be anxious to hear
of their safe passage across the Atlantic
— It would have been very pleasant
to hear from them before leaving England
but this I fear we must not expect
— Having how fully they are occupied
— I hope when in New England they
will sometimes remember their friends
at Lewry Green & write to them
— Then are when here mentioned my
sending them newspapers — I shall have
much pleasure in doing this or any
thing else in my power to serve them
— only write & tell me what it is —

Many Anti Slavery friends of ours
as well as ourselves became very
anxious about Fredk Douglass returning

soon after the lapse of a few months,
to your land - fearing he will not
be safe where there is a possibility
of his being seized - Many have spoken
to me on the subject, having become
greatly interested in his safety - Should
his friends in America will not promote
his return, without good ground to be
satisfied that his doing so is safe -
- We should be glad to be very kindly
remembered to James Buffum Esqr
dear friends the Burnhams & Lemuel (Esqr)
of Hutchinsons - I hope my dear friend
Thos will reach home in safety & find
they dear wife & family well - Our most
sincere & affectionate good wishes go
with them May every blessing attend them
Farewell
Mary Brady
